LANGUAGES & FRAMEWORKS

- TypeScript
- JavaScript
- React
- NestJS
- Node.js
- ABAP

FRONTEND

- React
- TypeScript
- Tailwind CSS
- HTML/CSS

BACKEND & INFRASTRUCTURE

- NestJS
- Docker
- Kubernetes
- GitOps
- GitHub Actions
- GitHub CLI

WAYS OF WORKING

- Code reviews
- Debugging & root-cause analysis
- Feature design
- Testing

LANGUAGES

German: Native speaker
English: C1
Japanese: JLPT N3

INTERESTS

- Road cycling
- Bouldering
- Hiking

PROFILE

Fullstack developer with a master's degree in computer science and broad experience building modern web applications. At FarmAct GmbH since 2021, first as a working student and, since April 2024, as a fullstack developer. On the frontend my focus is React, TypeScript and Tailwind CSS; on the backend NestJS, Docker and Kubernetes. I also work with GitOps and the GitHub CLI.

EXPERIENCE

Fullstack Developer

April 2024 – present

FarmAct GmbH

- Building and extending fullstack web applications with TypeScript, JavaScript and React.
- Delivering new product features end to end, from technical design through to production release.
- Investigating and fixing bugs to improve stability and the user experience.
- Taking part in code reviews and the ongoing improvement of code quality.

Working Student, Fullstack Development

November 2021 – March 2024

FarmAct GmbH

- Supported the development of efficient web applications across frontend and backend.
- Implemented small and mid-sized features and contributed to testing, troubleshooting and bug fixing.

Dual-Study Student, Computer Science

08/2020 – 10/2021

ICS e.V. / Müller Milch

- Gained hands-on corporate experience as part of my computer science degree.
- Developed ABAP applications.
- Contributed to the Project Portfolio Management team.

EDUCATION

M.Sc. Computer Science, final grade 1.7 (1.0 = best)

10/2021 – 03/2024

Hochschule Augsburg (University of Applied Sciences)

B.Sc. Computer Science, final grade 2.3 (1.0 = best)

10/2018 – 10/2021

Hochschule Augsburg (University of Applied Sciences)
